

`MakeGraph@n` creates the graph of knot diagrams with n crossings and then saves it to the appropriate file.

`MakeGraph[]` creates the graph of knot diagrams with up to 10 crossings and then saves it to the appropriate file.

```
MakeGraph@n___Integer :=  
  ( {List@@#1, List@@#2, #3} & @@@  
    CreateGraph@n >> Data@n ) ;
```
