CreateGraph@*n* gives a graph with minimal irreducible knot diagrams
    with *n* crossings as vertices and edges connecting each pair of knot diagrams
    that are equivalent under one 2-pass, flype, or third Reidemeister move.

CreateGraph[] gives a graph with minimal irreducible knot diagrams with up to
    10 crossings as vertices and edges connecting each pair of knot diagrams
    that are equivalent under one 2-pass, flype, or third Reidemeister move.
